

## Linking additional students to your account

Log in to your parent account for Show My Homework. You can do this via the mobile phone app (Satchel One) or via <https://satchelone.com>.

Click on the child's name that you have set up already, to bring up the menu.

Click **Settings**.

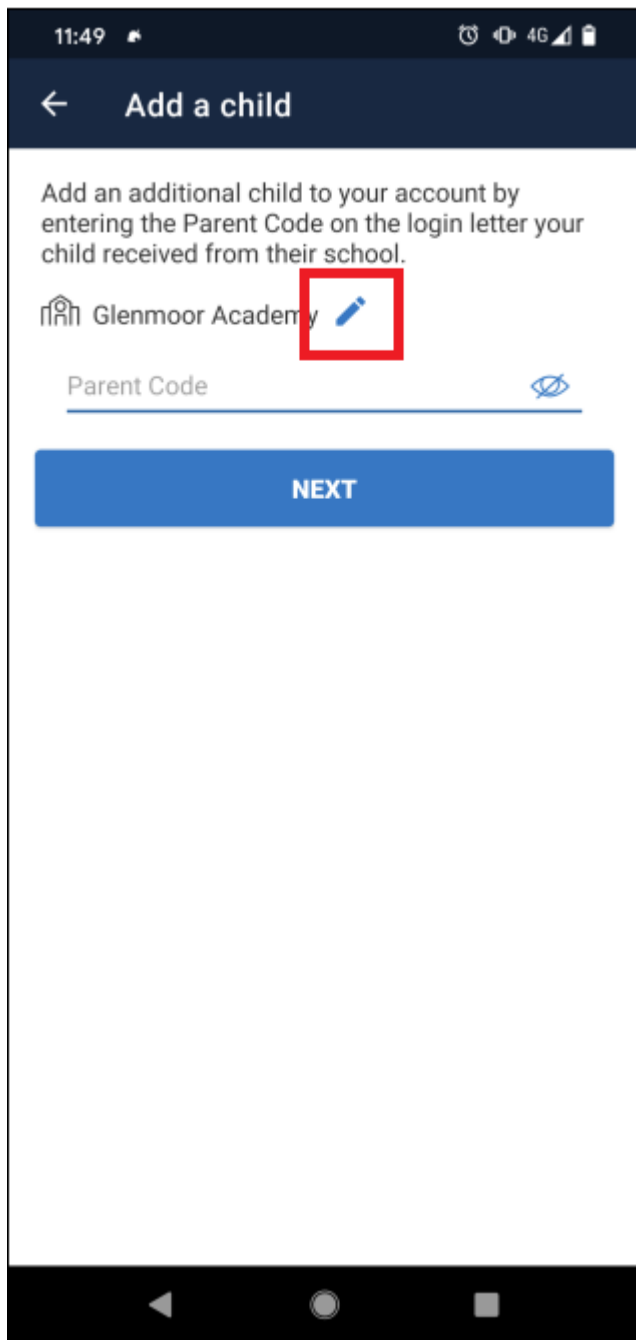

Click Student Management.

Click on the green circular icon to add an additional student.

Once you are in the 'Add a child' screen, click on the pen icon to edit the school e.g. Winton Academy. You may not need to do this if it is showing the correct school already.

Then add the parent code you have been emailed to link the additional student.

**Please note that your child cannot submit any homework using your parent account. They must always log in using their school account.**

If you have any issues with the steps above, please email [smhw@glenmoorandwinton.org.uk](mailto:smhw@glenmoorandwinton.org.uk).
